

European Commission  
Agriculture and Rural Development

*Risk management in agriculture*  
– *existing tools and potential developments in the future*

*Maciej Krzysztofowicz*  
*DG for Agriculture and Rural Development*  
*European Commission*

## *Risk Management in the EU*

- *Background and context*
- *Current situation*
- *Future*

# Risk Management – why an issue for the Commission?

- **Continuous calls from stakeholders → 2003 reform conclusions:**
    - Council mandates the Commission “to examine specific measures to address risks, crises and natural disasters in agriculture.”
  - **2005 Commission Communication**  
“Risk and Crisis Management in EU Agriculture”
  - **EU-wide options:**
    - Crop insurance premia subsidy
    - Development of mutual funds
    - Income stabilisation scheme
- but**
- No Council preference for any of the options
  - Must not undermine the instruments already existing at national level
  - Must comply with the WTO “green box” criteria
  - Joint responsibility vital
  - Source of funding

# *Risk Management – why an issue?*

European Commission  
Agriculture and Rural Development

- ***Increasingly unstable situation for farmers in the EU***
    - Decreasing role of price stabilisation mechanisms
    - Climate change - farmers increasingly exposed to risks
  
  - ***Experience learned from others:***
    - public support instrumental in provision and uptake of Risk Management tools
  
  - ***Heterogeneous risks/crises facing EU***
- Question on the table again for the Health Check of the CAP in 2008

*Context: available  
Risk Management tools  
before the Health Check*

European Commission  
Agriculture and Rural Development

- Price risks:
  - Intervention (**pillar I**)
  - Disturbance clauses (**pillar I**)
  - SPS (**pillar I**)
  
- Production risks:
  - Rural Development measures (**pillar II**)
  - Veterinary Fund (**SANCO**)
  - State aid *ad hoc* measures and insurance subsidies (**MS competency**, approved by the Commission)
  
- Sector specific solutions: Fruit and vegetables; wine

# Risk Management – Health Check

European Commission  
Agriculture and Rural Development

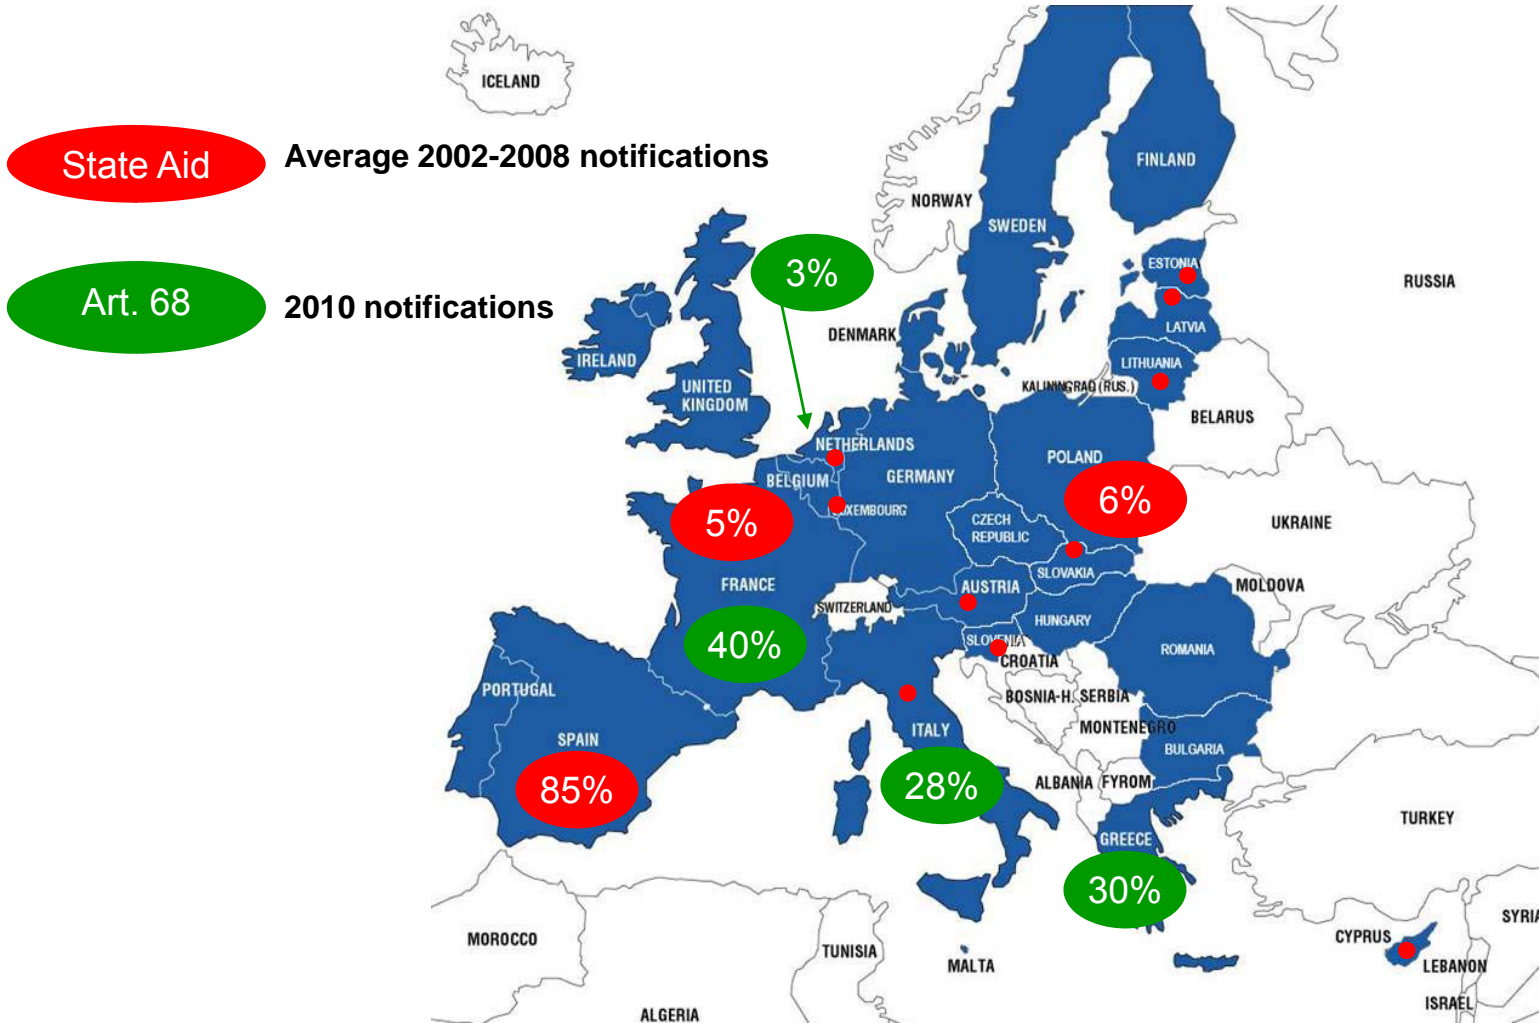

- ***Member States may choose to use up to 10 % of direct payment envelopes for risk management measures (Art 68)***
  - Contributions to crop, animal and plant insurance
  - Contributions to mutual funds for animal diseases, plant diseases and environmental incidents (cap of 3.5 % of Direct Payments)
  
- ***The intensity of aid will be limited to 65 %, EU co-financing will be limited to 75 % of this***
  
- ***Currently: notifications for 2010 have been received***

# Comparing insurance premia subsidy notifications through the state aid scheme and through Art 68

European Commission  
Agriculture and Rural Development

## *The future of Risk Management in the CAP?*

European Commission  
Agriculture and Rural Development

- Price risks and production risks
- Production risks – could improve coverage and efficiency, but framework is there
- Price risks – is there a need for something else to deal with market crises?
- Price, revenue, or income variation
  - What is the real worry for farmers? What is the responsibility of the public?
- What instruments would be available?
  - Price: intervention, CCP
  - Revenue and income: stabilisation schemes/insurances

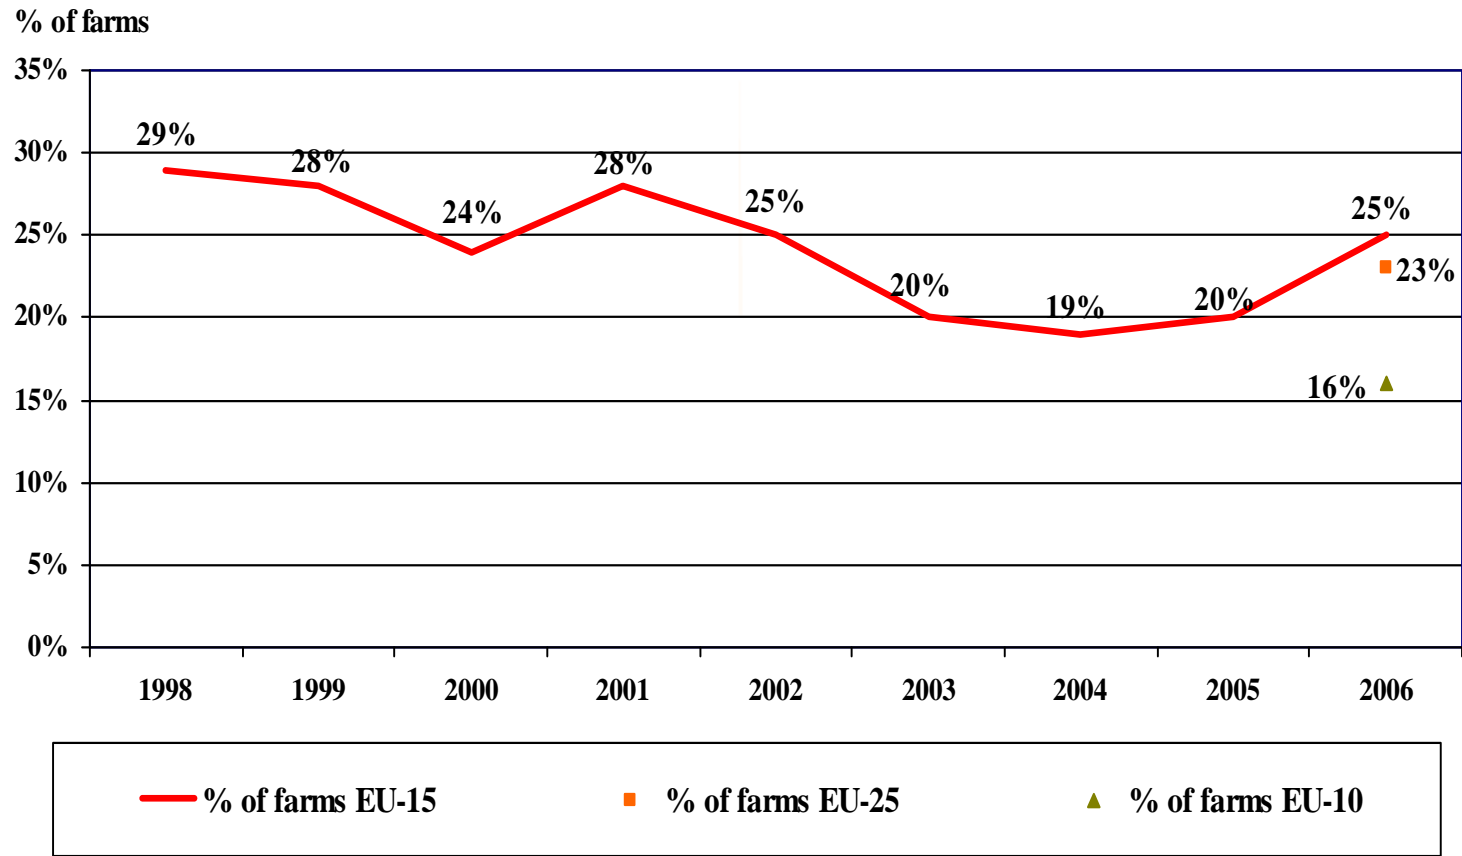

# The future of Risk Management in the CAP?

European Commission  
Agriculture and Rural Development

### Share of farms with 30% income drop compared to 3-year average

# *Revenue or income stabilisation scheme*

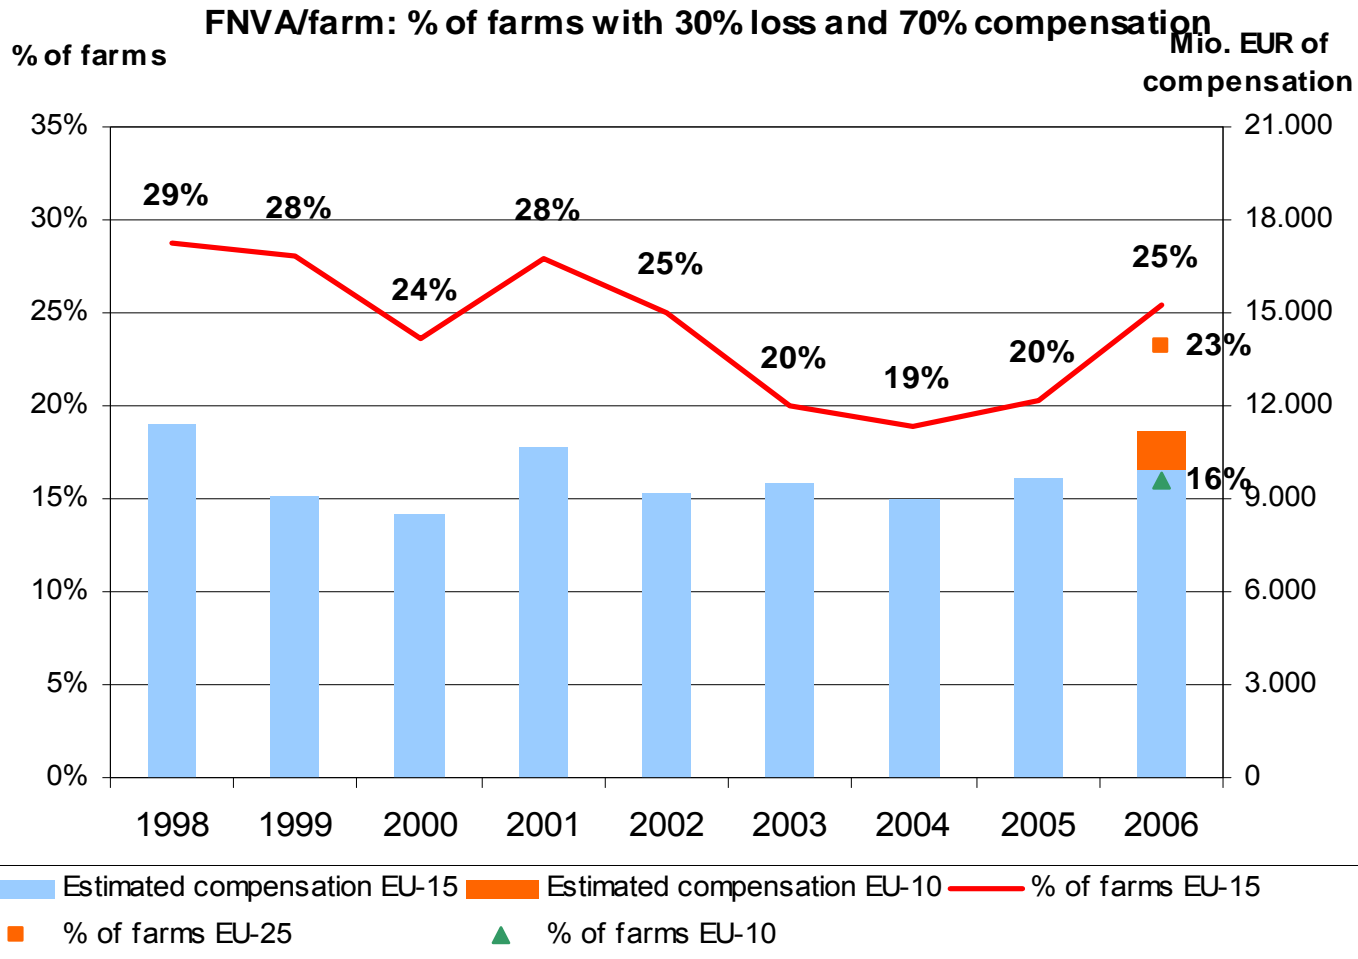

European Commission  
Agriculture and Rural Development

- Obligatory EU-wide instrument? Or continue on the path 'optional for MS'?
- Considerations:
  - EU-wide scheme: budget? variability?
  - EU-wide scheme: distribution between MS and sectors
  - EU-wide scheme: pros and cons compared to existing tools?
  - Optional for MS: distortion of competition?
  - Feasibility of implementation?
  - Administrative burden
  - Efficiency if also complying with 'green box'?
  - Interaction with other CAP-support?

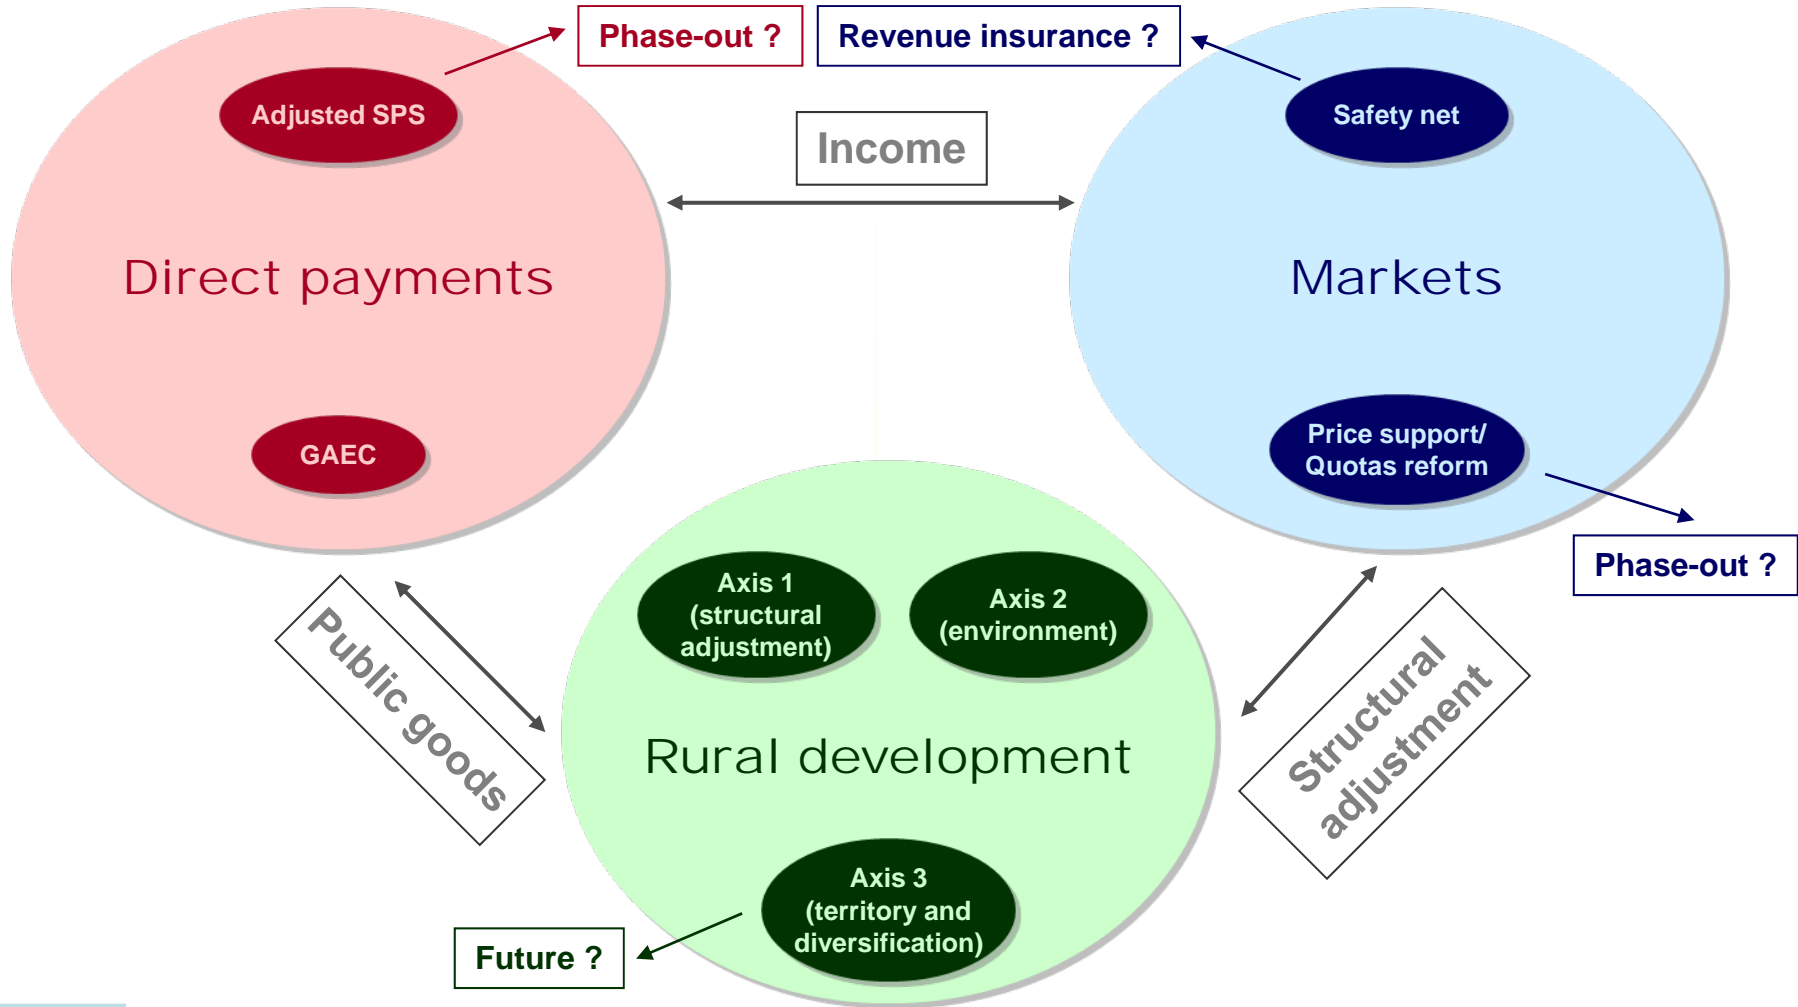

# Income stabilisation scheme, EU-25

# In a nutshell, CAP policy questions...

European Commission  
Agriculture and Rural Development
